How Is My Woodland Property Classified for Tax Purpose?

The answer has implications for deductions and income

Three Holding Purposes...

- A woodland property may be considered as one of three tax categories:
 - personal property
 - investment property
 - business property

Woodland as Personal Property

- Your holding is for personal purpose, not for profit seeking
 - Personal hunting and fishing
 - -Family retreat
- This classification is at a disadvantage because its tax deductions are limited

Is Your Woodland Property an Investment?

 Woodland property held for incomeproducing purposes may be an investment when your activity does not rise to the level of a business

Tax Treatment of Investment Property

- Expenses:
 - Don't file Schedule C as it is for business
 - ** Deduct on Schedule A, but it is subject to 2% of your adjusted gross income floor OR
 - ** Elect to keep them in the cost of your timber and recover upon timber sale

2% Floor Example

Your adjusted gross income was \$40,000.

Your woodland expenses was \$1,000.

But only \$200 is deductible on Schedule A:

 $1,000 - 2\% \times 40,000 = 200$

One of the best way to document your income-producing purpose...

• is by including income production and cash flow projection in your woodland management plan

What Is This Year's Tax Filing Deadline?

- A) April 13, 2012
- B) April 15, 2012
- **C) April 17, 2012 (Tuesday)**

What Is A Business?

• A business is an activity you regularly and continuously engage in primarily to make a profit

Passive Business?

- If you don't "materially participate" in your woodland business, your activity may be "passive"
- Loss from passive business activity cannot offset income from non-passive activity
 - Retirement income
 - Salary
 - Self-employment income ...

Deducting Expenses by a Business

Ordinary and necessary business expenses are fully deductible on Schedule C (material participants)

What Qualifies as a Business?

- Profit motive—Does the activity make profit?
 - The IRS presume an activity is for profit if it makes a profit during at least 3 of the last 5 years
 - Profit also include expectation that assets appreciate in value

What Qualifies as a Business?

- Does the time and effort put into the activity indicate an intention to make a profit?
- Does the taxpayer depend on income from the activity?
- Does the taxpayer or his advisors have the knowledge to carry on the activity as a business?

What Qualifies as a Business?

- Does the activity make a profit in some years?
- Has the taxpayer made a profit in similar activities in the past?
- The timber activities and transactions by a business are generally more active, regular, intensive and continuous than investment

Business or Hobby?

• If the profit objective is not met, your activity may be a hobby

 Losses that deductible for a business are disallowed for a hobby

Quiz: True or False

If your woodland is an investment property, the expenses are deductible but are subject to 2% of your adjusted gross income floor.

- A) True
- B) False

Example of Woodland Management Expenses

Fire, insect and disease control

Southern Pine Beetle

Examples of Woodland Management Expenses

Hiring Consulting Forester

Weed Control

What is Form T?

Forest Activities Schedule

This schedule has five parts:

- Acquisition
- Timber Depletion
- Profit or Loss from Land and Timber Sale
- Reforestation and Timber Stand Activities
- Ownership

Who Must File Form T?

- File Form T only if you:
 - claim a <u>depletion</u> deduction
 - timber sold after cut (vs. sold on the stump) (Sec. 631(a))
 - make an <u>outright</u> timber sale by <u>business</u> (Sec. 631(b))

Form T

- What about occasional timber sales?
 - defined as: One or two sales every 3 or 4 years
 - not required, but prudent to file

Quiz: True or False

Form T, Forestry Activity Schedule, is a tax form.

- A) True
- B) False

Figure Out Timber Basis

Transactions regarding timber acquisitions and sale involve its basis.

Basis reduces sale proceeds and therefore save taxes.

Figure Out Timber Basis

- For purchased timber property, the basis is the <u>purchase price</u> plus <u>other acquisition</u> <u>cost</u>

- For inherited property, it is the <u>fair market</u> <u>value</u> of timber on the date of death
- For gifted property, it is generally the <u>cost</u> in the donor's hand

An Example of Timber Basis

Pine Sawtimber:

• 30 MBF (\$300/MBF)

Hardwood Pulpwood:

• 100 cords (\$15/cord)

Pine Pulpwood

• 600 cords (\$7/cord)

Quiz

What Form Is for Reporting Woodland Business Expenses?

- A) Schedule A
- B) Schedule B
- C) Schedule C

Cost Share Payment

- Cost share payment must be included in your income unless it qualifies for income exclusion (Sec. 126)
- The excludable cost share payment must be:
 - From an approved program
 - For capital project (such as reforestation)
 - So, tree stand improvement cost share are taxable income as it is not a capital expenditure

Approved Federal Programs

- Excludable Federal Programs that may affect timberland owners include:
 - Conservation Reserve Program (CRP)
 - Environmental Quality Incentives Program (EQIP)
 - Wetland Reserve Program (WRP)
 - Wildlife Habitat Incentive Program (WHIP)
 - Forest Health Protection Cost Share
 - Conservation Security Program

Approved State Programs

• Approved State cost-share programs that most often affect timberland owners include:

 Forestry Development Program 	NC
 Reforestation of Timberlands Act Program 	VA
 Forest Resource Development Program 	MS
- Forest Improvement Program	CA
- Forest Renewal Program	SC
- Forestry Development Program	IL
 Forestry Productivity Program 	LA

Timber Loss from Casualty

Forest Fire

Hurricane Damage

Timber Loss from Casualty

- Casualty loss is deductible
- The amount of deduction is the smaller of fair market value loss or timber basis
- Tip: Basis and fair market value loss is for the entire timber account (vs. only the destroyed portion)
- Caution: the loss valuation for the entire property may be expensive or even prohibitive

Quiz

Is Cost Share Payment Income?

- A) Yes, you must always include it in your income.
- B) No, it's not taxable.
- C) Yes, but certain qualified cost share may be excluded from your income.

1099-S Reporting

- Lump sum timber sales are subject to 1099-S reporting
 - Effective for timber sales after May 28, 2009
 - Treasury Decision 9450
- Pay-as-cut sales has been subject to 1099-S reporting

Form 1099-S Reporting

- Who Must Issue 1099-S?
 - (1) the person (including attorney or title company) responsible for closing the transaction,
 - (2) the mortgage lender,
 - (3) the seller's broker,
 - (4) the buyer's broker, or
 - (5) the buyer

Taxes on Investment Income

New Tax for High-Income Taxpayer

- Beginning in 2013, investment income of a high-income taxpayer is subject to a new tax of 3.8%
 - Married filing joint: \$250,000
 - Single: \$200,000

Quiz

What transactions may involve timber basis?

- A) Timber sale
- B) Timber sale and claiming casualty loss

Timber Sales and Income

Ag. Handbook 718, pages 45-57, updated for:

Economic Growth & Tax Relief Reconciliation Act of 2001 (EGTRRA),

Jobs & Growth Tax Relief Reconciliation Act of 2003 (JGTRRA),

American Jobs Creation Act of 2004 (AJCA),

Treasury Decision 9450, and

Tax Relief, Unemployment Insurance Reauthorization, and Job

Creation Act of 2010 (2010 Tax Relief Act)

Type of Income

- When you sell timber, both the amount and type of income you receive are important
- Amount: Price Timber Basis Costs of Sale
- Type: Ordinary income or a capital gain

Type of Income

- In almost every case you would prefer that the income be a long-term capital gain:
 - Depending on your tax bracket, there is a 10 to 20% differential favoring long-term capital gains
 - If you hold timber for use in a trade or business, any ordinary income you earn from it is subject to self-employment tax, at rates up to 15.3%
 - Other reasons related to capital losses and Social Security benefits

Type of Income

- Three factors determine whether income you receive from timber is ordinary income or a longterm capital gain:
 - 1. Your primary purpose for holding the timber
 - 2. How long you have held it
 - 3. The method you use to sell or dispose of it

Primary Purpose

- Timber held as an investment (or for personal use) is covered under IRC sec. 1221
 - A capital asset in your hands, by definition
 - Gain from its sale or disposal qualifies as a capital gain, by definition, regardless of how you sell or dispose of it

Primary Purpose

- Timber held for use in a trade or business is covered under IRC sec. 1231
 - Not a capital asset in your hands
 - But gain from its sale or disposal still can qualify for treatment as a capital gain

Holding Period

- Holding period for long-term treatment depends on how you acquired the timber:
 - By purchase: More than 12 months
 - By gift: More than 12 months, including time the donor held it
 - By inheritance: No requirement
- Holding period is measured from the date of acquisition to the "date of disposal"

Method of Sale or Disposal

- Basically three ways:
 - 1. Outright sale or exchange
 - 2. Disposal with an economic interest retained
 - 3. Convert standing timber into products for sale

- Direct sale of standing timber for a fixed total amount agreed upon in advance, for example, through a timber deed or sale contract
 - AKA lump-sum sale
 - Once the sale is complete, the buyer has title to the timber and bears all risk of loss
 - "Date of disposal" is the date ownership of the timber changes hands – the *only* definition of "date of disposal" for an outright sale

- "Timber" is the parts of standing trees usable for wood products
 - Includes evergreen (coniferous) trees more than 6 years old when cut and sold for ornamental purposes
 - But not evergreen trees sold live, or the tops or other parts of standing trees used separately from the main stem

- For many years, only owners who held their timber as an investment (or personal property) qualified for capital gain treatment of income from the outright sale of timber
- But since Dec. 31, 2004, owners who hold timber for use in a trade or business also can qualify for capital gain treatment
 - Accomplished by a change in the wording of IRC sec. 631(b) put in place by AJCA

- Wording in AJCA also indicates that in an outright sale under sec. 631(b), "owner" is intended to be the landowner who makes the original sale
- Disposing of timber under sec. 631(b) gives the seller two important advantages
 - First, any gain realized is treated as a capital gain, regardless of whether the seller held the timber primarily for sale to customers – even if they are a dealer in standing timber

- Second, timber disposed of under sec. 631(b) is sec. 1231 property; any gain or loss from disposal of the timber is aggregated with other sec. 1231 gains and losses, with
 - A net gain treated as a capital gain
 Best tax outcome, because capital gains are taxed at a lower rate
 - But a net loss treated as (ordinary income)
 Best tax outcome, because the loss is deducted from dollars taxed at a higher rate

Example

Last year a timber buyer knocked on your door and offered you \$15,000, lump sum, to buy 1,000 cords of pulpwood from your 150-acre forest tract. You agreed. Your only cost of the sale was \$350 to have your lawyer examine the contract. Just before the sale, the tract held 2,320 cords of pulpwood with a cost basis of \$32,408.

Calculate your timber depletion deduction, your adjusted timber basis, and your net taxable proceeds from the sale.

Solution

- Calculate your timber depletion deduction:
 - = Depletion unit x Cords sold
 - $= (\$32,408 \div 2,320 \text{ cord}) \times 1,000 \text{ cords}$
 - = \$13.97 per cord x 1,000 cords = \$13,970
- Calculate your adjusted timber basis:
 - = Original basis Depletion deduction
 - = \$32,408 \$13,970 = <u>\$18,438</u>
- Report them on Form T (Timber), Part II

Form **T (Timber)** (Rev. 12-2005)

- Investors report a capital gain from an outright sale of timber on new Form 8949 and Form 1040,
 Schedule D 34
 - It will be combined with other capital gains and losses, with the net amount and your total tax due transferred to Form 1040
- You may be required to file Form T, Parts II and III
 unless you only sell timber "infrequently"
- You can expect to receive a Form 1099-S

Form 8949 (2011)

"Of course you have a purpose in life. You pay taxes, don't you?"

Disposal with Economic Interest Retained

- Disposal of timber under a contract that requires payment at a specified rate for each unit of timber that actually is cut and measured
 - AKA pay-as-cut contract
 - Technically a "disposal with economic interest retained," which means the seller typically retains title to the timber and bears all risk of loss until it is cut
 - "Date of disposal" is the date when the volume of the cut timber is first definitely determined

Disposal with Economic Interest Retained

- Before AJCA, a disposal with economic interest retained was the only method to dispose of standing timber recognized under sec. 631(b)
 - Owners who held their timber for use in a trade or business had to use this method to ensure their timber income qualified for treatment as a capital gain

Disposal with Economic Interest Retained

- In a sec. 631(b) disposal "owner" is any person or legal entity with the right to cut the timber for sale or use on their own account
 - Can be the holder of a sublease or cutting contract, as long as they meet the 12-month holding requirement
- Selling timber held for use in a trade or business "on shares" with a harvester likely is a sec. 631(b) disposal with economic interest retained

Example

Say instead of accepting the timber buyer's offer, you decide to take bids for the 1,000 cords of pulpwood. A consulting forester solicits the bids, structures the sale as a disposal with economic interest retained, and administers it for 10% of the gross proceeds. The best bid you receive is \$22 per cord, or \$22,000.

Calculate the adjustments to your timber basis and your proceeds from the sale.

Solution

- The adjustments to your timber basis are exactly the same as they were for the outright sale
 - Your timber depletion deduction is \$13,970
 - Your adjusted timber basis is \$18,438
- Report them on Form T (Timber), Part II

Solution

Calculate your net taxable proceeds from the sale:

Gross sale proceeds \$ 22,000

Minus depletion deduction - 13,970

Minus cost of the sale 2,200

Net taxable sale proceeds <u>\$ 5,830</u>

Report them on Form T (Timber), Part III

Participants in a business again include a note that your income is reported on Form 4797

Part III Profit or Loss From Land and Timber Sales (see instructions)

Form **T (Timber)** (Rev. 12-2005)

Disposal with Economic Interest Retained

- Investors report a capital gain from a disposal with economic interest retained timber on Form 8949 and Form 1040, Schedule D 899
 - It will be combined with other capital gains and losses, with the net amount and your total tax due transferred to Form 1040
- You may be required to file Form T, Parts II and III
 unless you only sell timber "infrequently"
- You can expect to receive a Form 1099

Reprinted from The Funny Times / PO Box 18530 / Cleveland Heights, OH 44118 phone: (216) 371-8600 / e-mail: ft@funnytimes.com

 If you cut standing timber and convert it into logs, pulpwood, or other products for sale, all of the income that results will be ordinary income unless you have a sec. 631(a) election in effect If you have an election in effect, then the income that results from holding the timber will be a capital gain – just as if you had sold it outright – and only the value added by converting the timber into products for sale will be ordinary income

NOTE: Profit from converting standing timber into products for sale *always* is ordinary income, *never* is a capital gain

- AKA sec. 631(a) transaction
- Inherently a business operation: In effect, you become an integrated forest products firm, selling the standing timber to yourself at a "transfer price" and making products for sale
- Make the election on Form T, Part II, line 18a

- "Timber cut by taxpayer" includes timber cut by other persons at your direction as well as timber you cut yourself
- "Owner" is any person or entity who, before entering into the 631(a) contract, has the right to cut the timber for sale or use on their own account

Can be the holder of a cutting contract or sublease, as long as they meet the holding requirement

But not the holder of a cutting service contract who is obligated to deliver the cut logs to a place you specify, even if your contract uses terms like "buy," "sell," or "stumpage charge"

"Transfer price" is the price at which the standing timber would have changed hands in a transaction between a willing, informed buyer and a willing, informed seller If you only cut a small amount of timber, price information from local mill operators or timber buyers may be good enough If you cut a large amount of timber, you need to use a qualified timber appraiser

- "Date of disposal" is the first day of the tax year in which the timber is cut – Jan. 1 for calendar-year taxpayers (deemed date of sale)
- Less common than other methods of sale, but An arrangement where a consulting forester oversees a harvest and delivery of timber to a mill, receives the payment, and writes checks to the owner and logger for their shares likely is a sec. 631(a) transaction

Example

Say instead of selling the 1,000 cords of pulpwood from your tract outright, you hire a consulting forester to oversee its harvest and delivery to a local paper mill. You receive \$50 per cord for the delivered pulpwood. The consultant sets the transfer price of the standing pulpwood at \$22 per cord and charges you \$5,000, \$2,200 for overseeing the harvest and \$2,800 for overseeing the delivery. The contractor charges you \$25,000 for harvesting the pulpwood and delivering it to the mill.

Solution

- The adjustments to your timber basis are exactly the same as they were for the outright sale
 - Your timber depletion deduction is \$13,970
 - Your adjusted timber basis is \$18,438
- Report them on Form T (Timber), Part II

Form T (Timber) (Rev. 12-2005)

Part II Timber Depletion (see instructions)

1	Name of block and title of account ▶	(Your Name) Merchantable Sawtimber Subaccount: Cut standing timber and
	convert into products for sale (section	on 631(a) transaction)

(mo., day, yr.) sales price improvements and sum of (d) and (e) expense of sale 1,000 cd pulpwood stumpage 02/01/2009 08/15/2011 22.000 16,170 5,830 Gain, if any, from Form 4684, line 39 . 3 Section 1231 gain from installment sales from Form 6252, line 26 or 37. 4 Section 1231 gain or (loss) from like-kind exchanges from Form 8824 . 5 Gain, if any, from line 32, from other than casualty or theft. 6 Combine lines 2 through 6. Enter the gain or (loss) here and on the appropriate line as follows: . 7 5,830 Partnerships (except electing large partnerships) and S corporations. Report the gain or (loss) following the instructions for Form 1065, Schedule K, line 10, or Form 1120S, Schedule K, line 9. Skip lines 8, 9, 11, and 12 below. Individuals, partners, S corporation shareholders, and all others. If line 7 is zero or a loss, enter the amount from line 7 on line 11 below and skip lines 8 and 9. If line 7 is a gain and you did not have any prior year section 1231 losses, or they were recaptured in an earlier year, enter the gain from line 7 as a long-term capital gain on the Schedule D filed with your return and skip lines 8, 9, 11, and 12 below. 8 Subtract line 8 from line 7. If zero or less, enter -0-. If line 9 is zero, enter the gain from line 7 on line 12 below. If line 9 is more than zero, enter the amount from line 8 on line 12 below and enter the gain from line 9 as a long-term capital gain on the Schedule D filed with your return (see instructions) Ordinary Gains and Losses (see instructions) 10 Ordinary gains and losses not included on lines 11 through 16 (include property held 1 year or less): Loss, if any, from line 7 11 Gain, if any, from line 7 or amount from line 8, if applicable 12 13 Gain, if any, from line 31 13 Net gain or (loss) from Form 4684, lines 31 and 38a 14 14 Ordinary gain from installment sales from Form 6252, line 25 or 36 15 Ordinary gain or (loss) from like-kind exchanges from Form 8824. 16 17 For all except individual returns, enter the amount from line 17 on the appropriate line of your return and skip lines a and b below. For individual returns, complete lines a and b below: a If the loss on line 11 includes a loss from Form 4684, line 35, column (b)(ii), enter that part of the loss here. Enter the part of the loss from income-producing property on Schedule A (Form 1040), line 28, and the part of the loss from property used as an employee on Schedule A (Form 1040), line 23. Identify as from "Form 4797, line 18a." See instructions 18a

b Redetermine the gain or (loss) on line 17 excluding the loss, if any, on line 18a. Enter here and on Form 1040, line 14

18b

Solution

 Calculate your ordinary income from selling the cut pulpwood

Sale proceeds	\$ 50,000
Minus FMV of the timber	- 22,000
Minus consultant's charge	- 2,800
Minus contractor's charge	<u>- 25,000</u>
Ordinary income	<u>\$ 200</u>

 Report it on Form 1040, Schedule C: List the FMV of the timber cut and other costs associated with the harvest and sale as "other costs" on page 2

- Report the timber-holding part of the transaction on Form 4797
 - It will be combined with other sec. 1231 gains and losses, with a net gain treated as a long-term capital gain and a net loss treated as ordinary income
- Report the sale of the cut products on a business schedule – Form 1040, Schedule C, for a business or Schedule F for a farm

List the fair market value of the timber cut and the other costs associated with the harvest and sale as "other costs"

Give details about the cutting and sale using Form T, Parts II and III

Include information on how you estimated the fair market value of the timber cut
